

The respiratory System

Let's apply our knowledge

Q1: The respiratory movement is composed from:

**Two
steps**

**several
organs**

**Q2: the air enters the body
through**

The eye

**The
nose**

**Q3: during exhalation the
diaphragm**

**contract
s**

relaxes

Q4: during inhalation the lungs

Deflate

Inflate

Q5: what is the respiratory organ that permits the gaseous exchange with the blood

**Pulmon
ary
alveoli**

**Bronchi
ole**

Q6: The exhaled air is rich in:

Oxygen

**Carbon
Dioxide**

Q7: When doing an activity we breathe

Slowly

Faster

Q8: Just human beings breath

True

False

The end
